Your Home' CD.**

Healing Your Home Project:

Deepening the Connection to Your Space Using Feng Shui and Harmonics

Can your mood change just by listening to a certain song on the radio?

Do you feel the need for a place that helps you return to your center and balance your heart?

Are you moved by certain musical tones or songs you hear?

Do the elements of your life seem out of balance, including the energy of where you live?

Are you affected positively or negatively by a space depending on its energy?

Based on the theory that a physical space has inspired and creative energy built into and within its walls, The "healing your home" concert-workshop will create transformative music and explain the concepts behind bringing a space to a state of balance and integrity.

At the "Healing Your Home" concert-workshop you will:

- Find and experience your perfect spot in a space
- Be part of a living organic matrix, shifting as the matrix shifts
- Awaken your sensitivity to spatial components
- Listen as each of the 5 Chinese Elements is expressed in its harmonic form
- Embody and express your preferred Element to create a symphonic container
- Experience how a space can mirror your life
- Feel what it's like to identify the power of synchronicity between yourself and an "other"

The first 99 registrants will receive a free 25-minute download version of the "Healing Your Home" CD.

Register early for this unique concert - workshop designed to transform and balance physical space.

Early Bird Special: \$99 (\$108 after June 30th)

Healing Your Home Project:

Meet the Presenters

Through the application of the 5 Chinese elements, cymatics, vibroacoustics and intention, you will understand the importance of balancing a space. Interspersed with exercises to “feel” each of the Elements as well as to “feel” your place in a space, you will be able to fully appreciate the connection between space and vibration. The concert-workshop culminates with a 25-minute live version of “Healing Your Home.”

Jeff Bova is a Grammy Award winning record producer, arranger and composer from Los Angeles. In addition to his award winning work with Celine Dion, he has contributed to hundreds of recordings by significant mainstream artists like Katy Perry, Michael Jackson, Luther Vandross, The Back Street Boys, Eric Clapton, Joe Cocker, Cyndi Lauper, Meat Loaf, etc. Jeff's experience with Feng Shui occurred in the 90's when he hired a master to assess his recording studio in New York City for the purposes of enhancing the business. He saw first-hand the positive results that Feng Shui offered and became a solid supporter. The master was His Holiness Professor Thomas Lin Yun—Carole Hyder's Feng Shui teacher.

Carole J. Hyder, MBA, WWM has accomplished international success as a Feng Shui consultant, speaker, teacher, and trainer. Her main teacher has been His Holiness Professor Thomas Lin Yun who lived in Berkeley until his death in 2010; she maintains her studies with his successor Her Holiness Crystal Chu Rinpoche. Carole is the author of three books and two videos and has appeared monthly on the NBC affiliate station KARE 11 Showcase MN discussing the various aspects of Feng Shui. Carole is founder and President of the Wind and Water School of Feng Shui, a private career school licensed by the Minnesota Higher Education Services Office. Prior to her pursuit of Feng Shui, Carole was a classically trained pianist, working toward a major in music from St. Teresa's in Winona, MN.

Although her major eventually changed, her interest in music did not. By combining her passion for Feng Shui with her musical background, she added a unique perspective during the shaping of the Harmonics for Your Home project.

The first 99 registrants will receive a free 25-minute download version of the “Healing Your Home” CD.
