Adobe Illustrator Technical Requirements

PRE-COURSE SETUP/PREPARATION

- In order to participate in this class you <mark>**MUST**</mark> have access to Adobe Illustrator software. Please ensure that the software is properly loaded and running smoothly before your class start date/time.

MATERIALS

- All necessary course materials are included and will be provided by the instructor at the start of class.

SYSTEM REQUIREMENTS

Internet Connectivity Requirements:
- Reliable internet access

Monitors:
- Two monitors (highly recommend). This will allow you to view the tele-classroom environment on one monitor (screen) **AND** run your applications on the other monitor (screen).

Hardware Requirements:
- CPU: 1 GHz or higher
- RAM: 2 GB or higher
- Resolution: 1280 x 720 or higher
- Speakers / Headphones
- Microphone (Webinar / Live Online sessions)

Operating System Requirements:
- Microsoft Windows 7 or 10
- Latest Chrome Operating System (OS)

NOTE: While we understand that our courses can be viewed on Android and iPhone devices, we do not recommend the use of these devices for our courses. The size of these devices do not provide a good learning environment for students taking online or live online based courses.

Web Browser Requirements (only one is required):
- Latest Google Chrome is recommended for the best experience
- Latest Mozilla FireFox
- Latest Microsoft Edge
- Latest Apple Safari

Basic Software Requirements (these are recommendations of software to use:)
- Adobe Illustrator.
- PDF reader program (Adobe Reader, FoxIt)
- Zoom: download Zoom from https://zoom.us/
